In 2022, Canada exported over \$21 million in military goods to Israel.

This includes over \$3 million in bombs, torpedoes, missiles, and other explosives.

**Weapons companies across Canada are making a fortune off of the carnage in Gaza and the occupation of Palestine.**

**We're calling on Canada  
to impose an arms  
embargo on Israel NOW.**

This means Canada would immediately halt all transfers of weapons to Israel.

Foreign Affairs Minister Mélanie Joly has the legal authority to deny export permits for arms to Israel on human rights grounds. **She can do this today.**
